Santa Cruz de la Sierra, Bolivia

## Profile

Proactive Software Engineering student with a strong focus on backend development and databases. Committed to continuous learning and delivering high-quality results using SOLID principles and design patterns. A collaborative problem-solver dedicated to improving processes and exceeding expectations in professional environments.

## Projects and experience

### BACKEND DEVELOPER | MEDICAL SYSTEM (CLEAN ARCHITECTURE) | *ACADEMIC PROJECT* - .NET 9 & SUPABASE

Architected a medical backend using Clean Architecture to manage patients, appointments, and notifications, ensuring a strict separation of concerns (Domain, Application, Infrastructure).

- Implemented the **Repository Pattern** and Use Cases to decouple business logic from framework dependencies and persistence layers (**Supabase/PostgreSQL**).
- Applied **SOLID principles** to guarantee a highly maintainable and scalable codebase, ready for enterprise-level deployment.

### LEAD DEVELOPER | "OJO CIUDADANO" MOBILE APP | *SANTA CRUZ INFRASTRUCTURE* *REPORTING TOOL - KOTLIN & JETPACK COMPOSE*

Developed a native Android application using Jetpack Compose (Material 3) and MVI (Model-View-Intent) architecture for predictable state management.

- Managed asynchronous data streams and concurrency using **Kotlin Coroutines** and **StateFlow**, achieving a high-performance user experience.
- Integrated **Supabase (Auth & PostgreSQL)** as a BaaS and **OpenStreetMap API** for real-time geolocation and urban issue reporting.

### FULL STACK DEVELOPER | ACADEMIC PORTFOLIO PLATFORM | *UNIVERSITY* *COLLABORATIVE PROJECT - .NET 9 & ANGULAR 19*

Co-developed a web platform for managing engineering projects using an N-tier architecture and MS SQL Server.

- Built a robust RESTful API in **.NET 9**, implementing design patterns to ensure scalability and ease of maintenance.
- Collaborated on a responsive frontend using **Angular 19**, focusing on intuitive UI/UX for academic environments.

## Technical skills

### BACKEND & ARCHITECTURE

- **Technologies:** .NET with C#
- **Concepts:** Clean architecture, N-tier architecture, SOLID principles, design patterns.

### DATABASES

- **Technologies:** Microsoft SQL Server, Oracle SQL, PostgreSQL, Supabase
- **Concepts:** SQL query optimization, normalization, relational design.

### ALGORITHMS

- **Technologies:** Competitive programming – ICPC
- **Concepts:** Data structures, dynamic programming, graph theory, mathematical logic.

### MOBILE DEVELOPMENT

- **Technologies:** Kotlin, Jetpack Compose (native Android).
- **Concepts:** MVI, MVVM, Coroutines, StateFlow.

### TOOLS & METHODOLOGIES

- **Technologies:** Git/Github, Jenkins CI/CD, Docker, Linux, Postman, Karate, Selenium / Appium
- **Concepts:** Agile / Scrum, collaborative development, testing (unit, E2E, performance).

### FRONTEND

- **Technologies:** Angular 19, React, JavaScript vanilla, HTML5, CSS3
- **Concepts:** Basic UX/UI principles

## Education and achievements

### EDUCATION

- **B. S. in Software Engineering** | Universidad Católica Boliviana “San Pablo” | *2022-Present*  
(*Expected graduation: 2027*)
  - **Status:** 7<sup>th</sup> semester.

### COMPETITIVE PROGRAMMING (ICPC)

- **Contestant** - ICPC National Bolivia | *November 2025* | Santa Cruz, Bolivia
- **2nd place** - ICPC Regional Santa Cruz | *September 2025* | Santa Cruz, Bolivia
- **Contestant ICPC** - ICPC National Bolivia | *November 2024* | Tarija, Bolivia
- **3rd place** – ICPC Regional Santa Cruz | *August 2024* | Santa Cruz, Bolivia
- **2nd place** – ICPC Pre-Regional Santa Cruz | *June 2024* | Santa Cruz, Bolivia

### CERTIFICATIONS

- **Bioinformatics & Data Engineering applied to Biomedical Sciences** – Escuela Complutense Latinoamericana | *Nov 2024*
- **JavaScript Essentials 1** – Cisco Networking Academy | *Nov 2024*

### LANGUAGES

- **English:** Intermediate (B2 – Conversational proficiency)
- **Spanish:** Native

**Interests:** Competitive programming, sciences, soccer, Formula 1, NBA and outdoor activities.
